As last year, 300 possible points for both rifle and pistol targets balanced these two disciplines, giving no advantage to either the rifle or pistol shooter.

A Surprise Match was held this year. A poster target, backed with hardwood plywood, was made with two sets of scoring rings, one for pistol and the other for rifle. Each shooter chose which type of .22 firearm to shoot, then made one shot on the target. Every shooter later autographed his/her bullet hole. The Rifle Winner was our club president, Bret Barnes. The Pistol Winner was our club secretary/treasurer, Chris Loving. This target was designed to be permanently hung in the AR&PC club rooms and will be displayed there.

A big thank you to Bob Mumby for running the range. His help to me was essential. And thank you to my wife, Christine, for running the match registration and keeping track of all the scores.

Thanks to all for participating in this Club Championship Tournament. See you next year in 2009.

Best Regards, Steve Locatelli
